Currently, we are expanding operations and are seeking a:

Millwright Mechanic

Job Description:

The successful candidate will have the opportunity to participate in the execution of a variety of complex automation projects. The candidate must observe all safety rules and build skills to become a confident and independent team player. Travel within Canada and the US may be required. Additional criteria as follows:

- Work on various stages of automation and control projects.
- Occasionally assist project managers and senior systems engineers on field service and emergency calls.
- Apply your strong analytical and mathematical skills.
- Meet project objectives in a timely manner.

Qualifications:

- 4th year College or graduate Millwright Mechanic.
- A drive to learn new concepts and enjoyment working with new technologies.
- Must be able to interpret and understand mechanical drawings, schematics and technical manuals.
- Able to work with other mechanics and electricians as part of a team.
- Able to work independently, schedule time wisely and make progress on multiple projects in a safe and cost effective manner.
- Excellent English: Both oral and written communication skills.
- Strong analytical and mathematical skills.

This challenging career offers a competitive salary and comprehensive benefits package. If you would like to learn more about CSI, visit www.csinnovation.com. We thank all applicants for their interest but only those considered for an interview will be contacted. Please submit your resume to HR@csinnovation.com
